United World Federalists, Inc., Appears As Defendant In Philadelphia Court Action

Philadelphia Tests Right of Political Pressure Group to Use Public Property in Advancing Program to Abolish the United States of America.

PHILADELPHIA—Legal action, believed to be the first to be directed against organized World Government forces in America, was reported to last week in an effort to restrain UNITED WORLD FEDERALISTS, INC., from using the rent-free facilities of the Philadelphia Free Library in furthering its program to abolish the United States of America. The challenge came about in the following manner:

By proclamation of Philadelphia's Mayor, Bernard Samuel, the period of April 23rd to 30th was designated as "World Government Week." As a part of its observance, the UNITED WORLD FEDERALISTS, INC., was granted permission to hold three rent-free meetings in the main lecture room of the Philadelphia Free Library—a public, tax-supported institution. Immediate protests resulted.

On April 15th, W. Henry MacFarland, Jr., a native Philadelphian, addressed an open letter to all City Councilmen, calling their attention to the unlawful use to which this public property was to be put. Receiving no response, he submitted the same complaint, by telephone on April 17th, to Franklin H. Price, Librarian. Upon Mr. Price's refusal to consider the complaint, he submitted a written request for facilities where loyal Americans might meet, during "World Government Week," to reassert their allegiance to the Government and Flag of the United States. Altho Mr. Price seemed to approve this request when suggested by telephone, the Board of Trustees of the Library rejected it at an executive meeting on April 20th.

On Friday, April 21st, as the date of the (Continued on page 3)

He flattered himself on being a man without any prejudices; and this pretension itself is a very great prejudice.

Anatole France

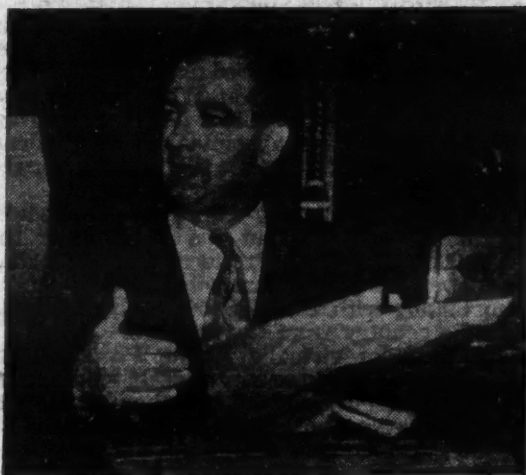

The above quotation is dedicated to those organizations and individuals who proclaim from the housetops that they are without prejudices—we specifically refer to the ANTI-DEFAMATION LEAGUE and individuals like Walter Winchell, Drew Pearson and other hypocrites who spew hatred under the guise of tolerance.

Recently the ANTI-DEFAMATION LEAGUE published their annual report (book) on anti-Semitism and discrimination in the United States. We found it a highly revealing book—not for the publicized "expose" that it pretends to give, but rather as an understanding of the groups and individuals engaged in tolerance-mongering.

In our opinion the book clearly shows that the ADL and the individuals connected with it are Professional Jews engaged in a big business proposition. How large a business? According to recent estimates its take runs between seven and ten million dollars each year. Few have heard about the Professional Jew—a man who makes a living out of being a Jew. Arnold Forster, ADL director and author of the current book is but one example.

Most Americans are acquainted with the old (Continued on Page 4)

Senator McCarthy Challenges Marxism

SENATOR JOSEPH R. McCARTHY

Those Americans who wish to live as free men and enjoy Christian worship as they see best, should thank our good Lord for such a man as Joe McCarthy. Senator McCarthy, like all other leaders who had the courage to challenge Marxism, is now attacked by Marxists and their dupes and hatchetmen. Only a few Communists are allowed to admit that they belong to the Communist party and, actually, none have carried cards since 1945. Those 55,000 admitted Communist Party members are only shock troops for the Marxist-Zionists who are the brains and directors of Communism while posing as loving, respectable men and philanthropists.

The Zionists set up Communism in 1917, as one of their fronts, to do a job for them. Zionists use Communism as the aggressive front to secure control of unions and other organizations with huge memberships so that those votes and power can be used to place Christian servants of Zionism in government key spots, to serve the Marxist program.

When it serves their purpose, Zionists disavow Stalin-Communism . . . but they NEVER (Continued on page 3)

An Open Letter To All Americans:

Several of our friends have asked us about a book called "A Measure of Freedom," written by one Arnold Forster, an employee of the Anti-Defamation League.

This book, cheap in appearance and poorly written, is merely the annual report of that Zionist organization. We noted in a printed letter which we addressed "To All Americans" on February 15th that Forster's former name was Fastenberg, and that he had worked since 1940 for the Defamation League.

The book purports to be an expose of "hate-groups" in the United States. It discloses how the (Continued on Page 4)

Russia's perfecting the bomb, under the circumstances, at an early date was expected by many an ordinary citizen and by some of the soundest of America's military leaders. Why did it fool Truman and Johnson, the men who determine America's military future?

Evidently these men are surrounded and kept uninformed and misinformed. It is no longer possible to doubt either that U. S. Intelligence agencies are infiltrated by men influential enough to fool the President and Secretary of Defense, or else that civilian advisers are able to explain away and discount the warnings submitted by Intelligence.

One thing is certain about this business: Mr. Truman and Mr. Johnson do not understand the deception and trickery, and the racial character of Communism and its kinship to organized Zionism. These men lack the judgment to know whom they can trust. There is nothing more important in the making of a good executive than such judgment and its lack is a dangerous weakness.

In his recent speech before the American Bar Association Mr. Truman followed the Communist and the Zionist party line (which is the same line in almost every detail) from beginning to end. For example, he belittled Communism in America as a small, despised group, noisy but practically harmless and kept well in hand by Truman's men!

For years it has been part of the Communist and the Zionist line to publicly belittle the influence of Communism in America. During the recent war a lieutenant whose record in my Intelligence files showed him to be a Zionist and also a member of Communist fronts, belittled the Communists as "just a small articulate minority."

Who wrote that Communist speech for Mr. Truman? Who keeps fooling the President about Communism at home and the atomic progress of the Soviets?

Suspicion points to David Niles, born Neyhus, a man whose pro-Communist history is a matter of record. Niles, the son of Russian Jewish immigrants, was described by a not-unfriendly writer in the Saturday Evening Post December 24, 1949, as "Mr. Truman's Mystery." (Continued on Page 2)

Professor Of N. Y. U. Condemns United World Federalists

In his March 18, 1950 column, "Haney Answers Questions," appearing in the New York Journal-American, Louis Haney, Professor of Economics, at New York University, made the following discerning comments:

"New York asks: 'What do you think of the United World Federalists? Is their scheme for world government good?'"

"ANSWER: I think that the so-called United World Federalists organization is part of a subversive movement designed to destroy the free U. S. of America. The reasons why I think so are these:

- (1) The persons who participated in the organization of this thing are the same as those who have been sympathizers with Russia or Communism.
- (2) The propaganda used is much the same as the Communists. They play up the horrors of the atom bomb and atomic warfare. They urge peace at any price. They get women from the League of Women Voters to make speeches.
- (3) The plain logic of the case condemns them. In any such 'world government' the free peoples of the earth would not have a 25 percent of the total vote. Soviet Union would easily be predominant. Thus there would be peace only if we were controlled by the Communists."

Man." He is an ardent Zionist, instrumental in persuading the President to heed Zionist demands despite their un-American character. He was, for a number of years, the underling of master strategist Felix Frankfurter at the Ford Hall Forum in Boston, whence Soviet loving speakers radiated out all over America.

Niles once was arrested in Boston in connection with a Communist-inspired labor riot. The Saturday Evening Post writer did not mention that. He did, however, say it was Mr. Frankfurter who got Niles into the White House, introducing him to Franklin D. Roosevelt as the kind of strategist the President might find use for. From that time on Niles has been virtually the President's shadow.

NILES, "ACTING PRESIDENT"

The real story of the sinister power behind the administration, which keeps it obliging world Communism, was revealed, perhaps boastfully, by the Saturday Evening Post writer, a tribal kinsman of Mr. Niles:

"In his time, Niles has dispensed Federal patronage, built political machines and honey-combed the Government with his proteges. Many a Cabinet member or other top official today has an uneasy feeling that he might rise or fall on a casual word from Niles. Currently if he cared to, Niles could lay claim to master-minding the independence of Israel and President Truman's controversial civil rights program."

There we have the facts. The exceedingly crafty Mr. Niles, backed by all the power of the rich and frightfully organized minority machine, with Felix Frankfurter and international Jewish bankers James P. Warburg and Senator Herbert Lehman behind him, steers the President's hand as it writes and signs the decrees.

As for the controversial civil rights program, it is the very heart of the Communist-Zionist revolution, which is and always has been a racial revolution, glorifying itself in a cloud of welfare and social (or racial) uplift formulas, not only to hide its racial character but actually to subvert the white race (the "ruling class") inciting minorities to demand "rights" which little by little chisel away the unity and pride and tax the strength of the productive people and chain them down with regulations cooked up by such men as Niles and administered by Christian-hating Niles henchmen, many of them of the races which can be made to hate the white "reactionary" and "fascist" and "anti-Semite". The civil rights program is a rehearsal for the violent revolution.

The Post article revealed what had earlier been revealed by this and other writers: that Niles was the official spokesman to the President for "organized labor and all of the racial and religious minorities." In saying that Niles could claim credit for the civil rights program, the Post writer was saying (to those who understand the revolution) that Niles was father of the President's COMMUNIST program. Was it, then, through Mr. Niles that Moscow, on April 27, 1946, handed this program in its present form, to some 100 Communist fronts and Zionist groups in a meeting at Detroit, as the principal immediate objective? It would not be the first time a presidential adviser had been used by Moscow to shape the President's policies. It was Communist Alger Hiss who advised Mr. Roosevelt at Yalta and who principally drew up the United Nations charter, adopted at San Francisco. Communists do not offer such contribu-

tions without orders and guidance from Moscow.

Since the Detroit civil rights conference, the Communist Party's Civil Rights Congress and the Civil Rights Division of the Anti-Defamation League of B'nai B'rith and the official Zionist organization, the American Jewish Congress, all have fought hysterically for what presently became Mr. Truman's civil rights program.

The Communists and Zionists could hardly show their hand more clearly if they showed Niles behind Truman in the movies and on television (to which they have such ready access.)

As Mr. Truman grows tired of problems over his head, Niles seems to gain influence. He was the President's constant companion during a three-weeks vacation in Florida, as Associated Press and other reports revealed. He writes some of the President's speeches and helps work over others.

Not long ago Rev. Kenneth Goff and Rev. Lawrence Reilly asked the President for an appointment in order to present a petition of 100,000 signatures asking that the Communist Party be outlawed. Goff is a former Communist, now lecturing and writing to combat the conspiracy. (It was he who last year put a "Murder, Inc." sign on the Soviet Embassy in Washington—and was fined in an American court for the act.) Recently Goff told me that the reply to their letter was on White House stationery, but was signed by David Niles.

"Niles tried for an hour and a half to get hold of our list of anti-Communists," Goff related. "He repeatedly assured us he would deliver it to the President in person. When that got him nowhere, he offered to deliver it to the Attorney General or some other appointee of the President. But Niles wouldn't let us see the President or the Attorney General or anyone but himself."

Here was a Zionist, with a pro-Communist record, with no title but the free run of the White House and the President's mail, holding the power to prevent known anti-Communists from talking with their President about how to save the country from Communism.

With Niles virtually Acting President, we have the maximum security risk. It will be dangerous to enter a war with him there, helping to shape policies and direct military operations.

Mr. Truman continues to appoint men pleasing to the Zionists. When he appointed and the Senate approved Thomas K. Finletter as Air Force Secretary Senator Herbert Lehman, one of the world's leading Zionists, commended the President and the Senate, saying "Mr. Finletter is an outstanding citizen of New York. I have known him intimately for a very long time."

Do you suppose the Senator who recently was able to carry the revolutionary ghettos of New York in an election, would say such kind words about any man who is effectively battling Communism, such as for instance, Senator Joe McCarthy?

The American people must forget about Washington and turn to themselves for leadership. We must proceed on the assumption that Washington either will be a political captive or bombed off the map when the time comes.

What to do to prepare? Patriotic leaders have failed repeatedly ever since the war to build an effective nationwide organization. Zionists and Communists and their plants, posing as patriots, have managed to nullify every effort. When American Action, Inc., was in the making, the smear bundists scared the uninformed and misguided people away from it. Time magazine, which had or has an enormous Communist cell inside its editorial office, ridiculed and misrepresented the patriotic move as if it were a Nazi project.

There is a plan by which we CAN organize with great promise of success if we will. It is similar to that devised by the late Secretary of Defense James Forrestal—who was harassed out of the Cabinet and to suicide by Winchell and Pearson and kept from putting the plan into operation. Forrestal's plan (at a time when the Secretary of Defense also was charged with internal security, before that responsibility was transferred by Niles and Truman to the weakling National Security Resources Board) was to direct police chiefs and sheriffs to organize hand-picked auxiliaries among the people.

ORGANIZE NOW

This is the right plan, except that we must forget about Washington and take the initiative in organizing ourselves round our local police and sheriffs and under our respective Governors.

It is preparation against internal seizure—and, if we are not faced with terrorist efforts to

seize our industrial cities and the government when Communism strikes, it will be only because we will have taken suitable preventive steps.

A handful of terrorists, using the all powerful weapon, fear, paralyzed and captured Russian cities, posting their own police and ordinances, backed up by their highly trained goons. If the Russians had understood the revolution and had organized themselves quickly, round their police, and had taken the initiative in trying to recapture and free their cities, they would have crushed the secret police, whom they outnumbered 1000 to one. But they were tricked and did not act with sufficient initiative. The farmers, for example—always anti-Communist—remained largely on the defensive and were caught in small bands or at their homes and disposed of.

The only free power is in the American people. Washington is under a reign of terror, patriots forestalled by Reds and politically ambitious tools.

The Communist plan to capture American cities is one of extreme violence. The plan for seizure of Los Angeles, intercepted some three years ago, shows the pattern. It will be necessary only to turn mobs into the streets, suddenly assassinate a hundred or so generals, Senators, state and local political opponents and patriotic leaders, to paralyze almost all other leaders with fear. After that, 100,000 strategically placed secret police from the Communist Party and propagandists from the Anti-Defamation League can take over, unless we have a plan and organized cadres, led by men who will not be fooled by the enemy.

I say fooled, because the enemy will not attack as a COMMUNIST machine at first.

The victims will be branded as fascist plotters against the government and "democracy". Revolutionary spokesmen, appearing as the most patriotic liberals, will pose as anti-Communist, as heroes whose violence was necessary to prevent a fascist dictatorship. The seizure of power will be made to appear necessary to prevent the rise of some mythical Hitler. Whether the President is destroyed or told that the assassins saved his life by destroying the fascist threat, will not matter.

I present this picture not to be sensational, but because it is without doubt the essence of the plan of the Communist Party and the strategy of the far more powerful Zionist apparatus for taking over this country, and I have reason to believe that the strategists hope for success within the next two years.

One thing which has disturbed them is the successful penetration of the Communist apparatus by FBI agents. Revolutionary leaders evidently are afraid the FBI will intercept the order for action and round up tens of thousands of terrorists, preventing the coup. That is why the Communist National Lawyers Guild—and one of Secretary of State Acheson's old law partners—are trying to oust J. Edgar Hoover and replace him.

With Niles holding so much power, it may be that Hoover's popularity plus the intelligent elements in the military will not be able to keep the FBI head there forever.

The plan by which American citizens can defend their families, farms and cities, the plan which depends on local initiative, organizing round the police and looking to state Governors, is admittedly ambitious. But so is any plan that could frustrate and defeat the most powerful fifth column in history, now inside our borders. It is a sound plan, and we can make it succeed if we will work with city officials, police and community leaders, showing them the danger and offering our services. Here is a real project for the American Legion and the VFW, and you and me, to initiate.

Dear Mr. McGinley:

Enclosed find the usual small contribution to your noble work. I wish to express my deep regard for your courageous work and your unceasing effort to exterminate some of those two-legged rats who are working so assiduously to hand this nation over to Russia. Zionist Version Of The "Last Supper"

In true Anti-Christian fashion, Zionists here depict a mocking version of the Last Supper, so dear to Christians. This caricature, and others of a similar nature referred to in past issues of Common Sense, circulated widely by Zionists

leaders in Communist controlled countries, illustrates once more the Anti-Christian character of Marxism, and that the primary aim of Communism and Zionism is to wipe Christianity from the face of the earth.

UNITED WORLD FEDERALISTS

(Continued from page 1)

first World Government meeting (April 24th) neared, Mr. MacFarland issued a last minute written appeal to the Mayor, as the Chief Executive of the Municipality, which was negatively received.

All efforts to obtain an official remedy having failed, Mr. MacFarland inaugurated legal action by way of a Complaint in Equity. This named the City of Philadelphia, the Board of Trustees of the Free Library of Philadelphia, and UNITED WORLD FEDERALISTS, INC., as defendants. It asked for a preliminary injunction restraining the later corporation from meeting in the Library on April 24th, 26th and 28th, and for a mandatory injunction preventing the organization from doing so at any time in the future.

In his Complaint, Mr. MacFarland cited the UNITED WORLD FEDERALISTS, INC., as a sectarian-political corporation, operating for the purpose of abolishing our armed forces and subordinating our Government, its Congress and its Courts, to the rule of a World State authority. He did not challenge the organization's right to function or to propagate its program, but objected to its use of public property, supported by the tax money of many loyal citizens who are opposed to World Government, as a means of forwarding its proposals amongst the public. He also cited Article IX, Section 7, of the Pennsylvania Constitution, which he argued would be violated if the meetings were to go on. The provision prohibits the use of funds appropriated by the General Assembly by any corporation or individual. It was argued that the Library, by granting rent-free meeting space to UNITED WORLD FEDERALISTS, INC., had, in fact,

granted the equivalent of a cash subsidy to that group, paid for by the general taxpaying public.

Because of the lateness of the hour, and the death of a prominent Common Pleas Judge during that week, a hearing on the plea was held off until May 1st, at which date all meetings objected to had been held. Common Pleas Judge, James Gay Gordon, President of No. 2 Court, therefore dismissed the request for a preliminary injunction. He refused, however, to dismiss the plea for a mandatory injunction prohibiting future meetings of this kind. The case, instead, has been continued, much to the dismay of the UNITED WORLD FEDERALISTS, INC.

Mr. MacFarland, who resides at 876 Granite Street, in Philadelphia, issued the following statement following today's preliminary hearing. He said:

"Our inability to present the case before the Court at an earlier date was a result of my sincere belief that a specific and responsible protest to City Council, the Library's Board of Trustees, and other City officials, would obtain a fair hearing. I would not believe that so flagrant a violation of the law could go unchallenged, if called to the attention of those whose duty it is to uphold the law.

"Now, of course," Mr. MacFarland continued, "we all know how things stand, and any future attempt by the UNITED WORLD FEDERALISTS to misuse public property will result in immediate legal action."

Observance of "World Government Week" itself, must have been bitterly disappointing for its sponsors. Attendance at the three Library meetings was extremely poor, and all "question periods" following the speakers' remarks were cancelled. Press coverage of the meetings was extremely limited. A rather impressive police detachment provided curious comment in the quiet lecture room, while the speakers seemed to take special care in avoiding the usual assertions, heard at most World Government meetings, that national sovereignty and national independence stands in the way of world peace. The entire atmosphere bore a heavy, strained quality, while concert music was called upon to fill in a major part of the programs.

Asked what action would be taken in case of a final-dismissal of his plea for a mandatory injunction, MacFarland replied:

"If that happens, I shall ask the City Solicitor to bring this entire situation before a Philadelphia Grand Jury, with the view toward obtaining criminal indictments. If this also fails, I shall consider filing such charges on my own behalf, probably sometime in June."

The World Government Movement has been thrown onto the defensive in the shadows of Independence Hall. Perhaps it has not only to contend with living opponents, but also the stirring Spirits of those departed Patriots who here triumphed over other alien tyrants, more than a century and a half before us.

AMERICA . . . OUR COUNTRY

Senator McCarthy Challenges Marxism

(Continued from Page 1)

condemn Marx, Lenin, Trotsky, or the MARXIST PROGRAM. An example of this is the Marxist Anti-Defamation League of B'Nai B'Rith. Not for five million dollars would the Anti-Defamation League support Senator McCarthy, but to disarm Christians, the A.D.L. poses as an anti-Communist group.

Communism is one of the lower degrees of Zionism. If the public is now becoming wise to Communism it makes little difference if the Zionists have to disavow it. Communism has done a job in conditioning the U. S. for Marxist Rule. Zionists are Marxists. Zionists who set up Communism in Russia find their front man Stalin getting ideas of his own, so like Tito the Zionists would like to bring him back in line, that accounts for the mild criticism forced from Zionist controlled groups.

The important point is: How many Marxist-Zionists are there in our government?

Word has gone out from the Sanhedrin to destroy the patriot, Senator McCarthy. Much money has been expended for snoopers to investigate his past history, in an effort to see if they can find anything embarrassing to McCarthy, in order to "blackmail" him into silence. Maybe he snatched up marbles at the playground at school? How can they frame him? Such Red publications as the New York Post and the Marxist sheet, The Compass, along with numerous parlor-pinks, so-called liberals, and Welfare State supporters, now brand McCarthy as a Nazi who defrauded on income tax . . . conspired as a Judge in Wisconsin to be transferred to another district for some "sinister" reason. Because he turned the spotlight on the Red Queers in our State Department, McCarthy is—so the Reds say—"subjecting our Country to ridicule by other countries." Could any thinking people in Europe still doubt that Washington is presently being run by lunatics and traitors? They must have been laughing themselves silly at the way the Administration has been shoveling taxpayers' money into all parts of the world, while our debt runs up to 260 billion direct debt, in addition to 300 billion indirect debt . . . hurrying us into bankruptcy so that the Marxists, waiting with a "plan", can TAKE OVER. All those whose tails wag at the mention of Karl Marx are against Senator McCarthy.

If each State could send a man to the Senate such as Wisconsin did, America would preserve her freedom.

We must remember that it is not necessary for the Marxists to crush everyone in order to set up slavery for all Christians . . . it is only necessary for them to crush our leaders. We must not allow the enemy to plant distrust of our leaders—those leaders of McCarthy's trustworthiness—in our minds. On the contrary, we must sustain them, or we will ALL go down.

Senator McCarthy has only scratched the surface so far.

An Open Letter To All Americans:

(Continued from Page 1)

League spends its time and money. As a matter of fact, though we speak only for the National Economic Council, "A Measure of Freedom," is an attack on individuals that opposed American entrance into World War II, that have long opposed Communism, and that are fighting to maintain the American Republic. In brief, what purports to be an expose of hate groups is a selfexposure of the hate the author and his kind have for essential American principles and traditions.

The contents of the book is a rehash of old and dull stuff which is without either significance, or important. By lifting excerpts from their context, it misinterprets statements we have made in the past and thus falsifies the record.

Back in 1943, the late Paul Shoup, then President of the Merchants and Manufacturers Association of Los Angeles, and formerly President of the Southern Pacific Railroad, gave a large luncheon for me at the California Club in Los Angeles. As I sat by him at luncheon he related to me that no less than fifty telephone calls had come to his office the past few days, warning him that I was a "Fascist" and an "AntiSemite." The incident was closed when he, or his secretary, told them that if they had any information, the place to take it was the F.B.I. Mr. Shoup knew that "Fascist" and "AntiSemite" are simply epithets applied by certain elements to persons who oppose Communism.

The book contains outright falsehoods and false inferences. It aims to intimidate contributors to the Council by publicly listing certain names.

If there is to be an Anti-Defamation League for Zionist-Americans, why not one for the English-Americans, the Italian-Americans, the German-Americans, and so on? The answer is, first, that no other group in America takes itself so seriously—none other demands rights (including the "right" to "smear" with impunity) that others do not exercise; and, second, since so many of these Zionists have been in the forefront of movements to undermine the principles of the American Republic, to the advantage of Communism, it is a fair inference that all this shouting about "Anti-Semitism" is merely a smoke-screen to cover what the authors of this Zionist hatred are doing to America.

We have always made the distinction between Zionists and the great mass of Jews, many of whom (like the American Council for Judaism) have been attacked even more bitterly than ourselves by the Zionists.

We are Christians and we hate nobody. But we detest the sly, insinuating, intimidating cowardice that this book and other Zionist writings exhibit and which, we regret to say, is so often practiced the length and breadth of the land, but especially in certain cities on the Eastern seaboard. We note with interest that no daily publication has given wider publicity to Forster's book than the Communist Daily Worker. Still Zionists say they should not be bracketed with Communists.

We think, as many distinguished non-Zionist Jews think, that the Zionists are digging their own grave. The pity is that their selfishness may lead to the destruction of our Republic.

For twenty years we have fought as hard as we know how for the preservation of the Republic. That means the preservation of private competitive enterprise, private property and individual initiative. It means the preservation of American independence.

This country can be saved for the great mass of the American people, most of them men and women of small or moderate means, but who want their children to have the same opportunities they have enjoyed.

We will not stop to turn back. We never have. We will continue the fight—undeterred by the yappings of alien-minded persons who seek the complete control of all America for themselves and care not what means they use to attain their end. We will not be diverted by their falsehood and innuendo. We will tell the truth as we see the truth. And we will be heard.

With the aid of Almighty God and the support of loyal Americans, we will help save American liberty for Christian and Jew alike.

type racketeer who threatened the small business man unless he paid protection money. The ADL seems to operate on the same principle. The ADL thrives through magnifying and distorting anti-Jewish activity in order that it may shake down its fellow Jew under the guise of protection. There are many Jews (but not enough) who see through the Professional Jew and recognize him for what he is. There are a few organizations like the AMERICAN COUNCIL FOR JUDAISM who arouse the wrath of the ANTI-DEFAMATION LEAGUE because they refuse to become Professional Jews.

This new ADL book not only attacks persons who are not Jewish but it also attacks Jews who express independent opinions on public matters. On page 96 of the ADL book we find the following: "A scurrilous piece captioned THE WHEEL OF HATE appeared in the March 1949 issue of the monthly magazine PROGRESSIVE. In it Milton Mayer, who is himself Jewish, libelled Jewish Organizations as 'blood-drinkers' for their alleged stand on the Gieseking (famous German pianist) matter. Unfortunately one big city newspaper (Chicago Tribune?) saw fit to repeat the defamation by reprinting Mayer's outpourings in condensed form."

On page 67 we find another attack: "In 1947 (Merwin K.) Hart continued to add to his record of hostility toward Jews. Twice in that year he lent the pages of his ECONOMIC COUNCIL LETTER to anti-Zionist, anti-Jewish diatribes by the peculiar Benjamin Freedman. Born a Jew, Freedman, writing in the December 15, 1947, issue, maligned a large section of the Jewish population by asserting that 'American-Jewish supporters of political Zionism are guilty of un-American activities.'"

On page 80 of the ADL book Mr. Forster writes: "Organized anti-Semitism is any planned activity deliberately designed to undermine the security and welfare of the Jewish community." Mr. Forster does not tell his gullible readers that actually there is no organized anti-Semitism in the United States. That a great many of the "leaders" he attacks "paddle their own canoe."

That many of them are filled with egocentric mania so that organization is utterly impossible. Even the threat of dictatorship from some of the so-called "anti-Semites" would be doomed to failure since these individuals lack the rigid discipline (to the point of self-sacrifice) which the Communist party maintains. In short there is no vitality in the deceptive term which Mr. Forster exploits—"Organized anti-Semitism."

After a careful perusal of the ADL book the reader might ask: "Just who is Mr. Forster kidding?" and the answer (if the reader will think it through) becomes apparent—"Mr. Forster is kidding (shaking down) the people who contribute the seven to ten million dollars each year to the ADL and other organizations and individuals who make it big business by being Professional Jews. The Anti-Defamation League book is called A MEASURE OF FREEDOM. Mr. Forster would have named it well if he had called it A MEASURE OF HYPOCRISY."

Note to our readers: This bulletin and its editor are mentioned in the new ADL report. We have the smear without having the gain—The ADL claims that U. S. anti-Semites raised over \$1,000,000.00 last year. Quite a tidy sum with most of it being collected by a few individuals. Since the ADL continues to list us we could very easily give them something to crow about if we were fool enough to fall into their trap. We could quote (on the Jewish Question) from many of the great masters like William Shakespeare, Voltaire, Lord Byron, Charles Dickens, Hilaire Belloc, Major Francis Yeats-Brown, Benjamin De Casseres, Henry L. Mencken, and Feodor M. Dostoevsky to name but a few of the great and honored of the world's writers. But why be fool enough to help racketeers raise more millions.

It is significant in the ADL book that there is no outright condemnation of Communism, Socialism, New Dealism (three shades of Marxism) which threaten the United States and World Peace nor is there any warning against World Government or the other kindred groups which are out to destroy the security and the sovereignty of the United States under the guise of high-sounding but meaningless phrases.
